### Kosher Travel Meals

See-Me Travel introduces "My Own Meals," a revolutionary new approach to eating kosher abroad. These vacuum packed meals do not require refrigeration and can be heated without the benefit of a stove or microwave oven. Each box is accompanied by an amazing device which warms the meal in a matter of a minute or two.

You simply rip the top off of the bag containing the device, add a small amount of water, and place it inside the box of food. The water begins to bubble and — presto! A warm delicious meal.

"My Own Meals" are under the *hashgacha* of the Soloveitchik Rabbinate and are available in a variety of *milchig*, *fleishig* and *pareve* selections. The business traveler or vacationer can easily slip these small compact boxes into their luggage, and they're just as handy for home and school use.

"My Own Meals" are distributed by See-Me Travel. For more information, see their ad in our Professional Services Directory. ■
